

## OVERVIEW

- Do you wonder how alternative energy sources affect and impact the mission readiness of the military?
- Do you know all the practical benefits of managing your energy needs and uses wisely beyond satisfying the requirements of Executive Order 13123 for your facility?
- Do you want to find out how to establish a successful energy management program at your facility?
- Do you have questions on the benefits and applications of alternative fuels for your installation?

The workshop will feature staff from the Michigan Department of Environmental Quality, U.S. Environmental Protection Agency Region 5, and the Department of Defense, who will present a variety of topics relating to alternative and renewable energy, including energy efficiency and biofuels.

### Who Should Attend?

This workshop is recommended for environmental staff of Department of Defense facilities in Michigan and the Great Lakes region who have an interest in energy related issues pertaining to Executive Order 13123, "Greening the Government Through Efficient Energy Management." Department of Defense contractors, energy suppliers, manufacturers, and vendors, as well as other federal facility staff will benefit from this workshop and are encouraged to attend.

The Michigan Department of Environmental Quality (MDEQ) will not discriminate against any individual or group on the basis of race, sex, religion, age, national origin, color, marital status, disability, or political beliefs. Questions or concerns should be directed to the MDEQ Office of Human Resources, PO Box 30473, Lansing, MI 48909.
